See you at European Microwave Week!

We are pleased to announce that this year we will be attending **European Microwave Week**, which will be held **in Paris from 29 September to 4 October**, at **Booth A085**.

We will present our frequency comb fibre laser, LFC 1500. It is a mode-locked fibre laser with pulse repetition rates of 2.2 GHz and wavelength emission in the band of optical communications, characterized by high stability, excellent SNR and mil grade robustness., which can be used for Analog to Digital conversion or as multi-frequency carrier in high bandwidth systems.

In our stand, you can meet our Sales Engineer, **Gaia Sardiello** (gsardiello@fyla.com), and the Technical Sales Manager, **Paulius Naujalis** (pnaujalis@fyla.com), who will also present a speech at MicroApps on Thursday, October 3, entitled “Optical Oscillator for RADAR Applications which Solves Century-Old Stability Problems”.

We are waiting for you!

Come and visit us: **Booth A085!**
